Reliance Capital Asset Management Proxy Voting Policy

Reliance Capital Asset Management Ltd (RCAM) is the Asset Manager to the Reliance Mutual Fund (RMF). Proxy voting is the paramount, fiduciary duty of Reliance Capital Asset Management Company (henceforth referred to as "RCAM and/or AMC") on behalf of the unitholders. AMC recognizes that this duty requires it to vote on behalf of the unit-holders in a timely manner and make voting decisions in advancing the economic interests of the unit-holders and protecting their rights as beneficial owners of the corporation in whose securities the AMC invests through the schemes that it manages.

The AMC generally shall support proposals that promote the functioning of Boards in the best interests of the unit-holders, resolutions that change the state of incorporation, merger etc. Issues raised by shareholders or others would be dealt on a case by case basis keeping the impact on the shareholder value. The AMC reserves the right to vote against any resolution that goes against the interest of shareholders.

RCAM shall evaluate the various proposals in entirety in respect of each Issuer and proposal. Based on the final decision so arrived at, it shall cast a vote either through its official representative or a professional proxy voting service provider or as the case may be.

While determining the proxy voting in respect of each proposal, the requirements from SEBI as may be applicable from time to time shall be complied with.

While arriving at the decision to vote, views of the Fund Managers, Research Analysts and other executives and sources may be considered.

Corporate Governance standards, disclosure requirements, and voting mechanics vary greatly among the markets outside India in which the schemes may invest. RCAM will accordingly cast the vote in a manner believed to be consistent with the policy, while taking into account differing practices by market. In addition there may be instances in which the RCAM may refrain from voting if, the cost of voting in foreign markets may be substantially higher. It may also refrain from voting on the issues presented in which RCAM feels are unlikely to have a material impact on shareholder value and its unit-holders.

RCAM recognizes that there may be a potential conflict of interest when it votes on an entity with which RCAM may have some relationship. However, RCAM will ensure to vote in the interest of the unit holders.

There may be circumstances where RCAM believes it is in the best interests of a Fund to vote differently than the manner contemplated by the Guidelines. The ultimate decision as to the manner in which the RCAM's representatives/proxies will vote rests with the RCAM.

The Chief Executive Officer shall delegate the responsibility for exercising the voting rights as it deems appropriate.

The fund receives notice(s) from time to time, for the shareholders meetings of various companies, where it has its investments. The necessary details in this regards are as follows.

NOTICE CUM ADDENDUM NO. 55 DATED NOVEMBER 12, 2010

With a view to simplify the process of management & tracking of investments for the investors, Reliance Mutual Fund (RMF) has taken a step forward to launch an add – on feature known as “**Flexible Asset Selection Tool**” (FAST) with effect from **November 15, 2010**. FAST aims to provide “*embedded 360° financial solutions*” suitable for all types of investors having different goals & risk appetite during different time frames. FAST endeavors to empower the investors with customized integrated financial solutions, thus assisting one, to achieve Financial Goal through Right Planning.

FAST aims to enable an investor to plan for his financial goals including but not limited to wealth creation through asset allocation, achieving long term goals through systematic investments, investments for tax saving, managing short term cash surplus & any other financial goal as may be deemed fit from time to time.

The objective of wealth creation through asset allocation is to enable an investor to achieve the wealth creation goal by allocating the investments in various Schemes of RMF as per the risk profile on the basis of a proprietary model.

An investor’s risk profile has been defined into Very Aggressive, Aggressive, Moderate and Conservative category. On the basis of the categorization of an investor’s risk profile, a proprietary model has been devised which proposes allocation of funds in various schemes of RMF. The proprietary model recommends the below mentioned allocation of funds in equity & fixed income asset classes:

Asset Allocation	Conservative (%)	Moderate (%)	Aggressive (%)	Very Aggressive (%)
Equity Asset Class	30	55	70	80
Fixed Income Asset Class	70	45	30	20
Total	100	100	100	100

For this purpose Equity Asset Class will include Schemes such as equity diversified, sector, tax saver, balanced, index & arbitrage schemes of RMF., Fixed Income Asset Class will include Schemes such as liquid, debt and monthly income plan of RMF. The above mentioned asset allocation model have been derived using established theories on risk and return. Readers are advised to seek appropriate independent professional advice and arrive at an informed investment decision before making any investments.

There are two plans (A&B) available under wealth creation through asset allocation. An investor is required to invest minimum of Rs 25,000 in Plan A and minimum of Rs. 100,000 in Plan B. The minimum investment amount criteria will also be applicable respectively in case of additional investments in both the Plans, by an existing investor. Reliance Capital Asset Management Limited (RCAM) reserves the right to change the minimum investment amount and minimum additional investment amount as mentioned above from time to time. Under both Plan A & Plan B, apart from the suggested asset allocation, an investor also has an option to determine his asset allocation as per his choice in various schemes of RMF.

It may be noted that the Asset Allocation will be done in the form of multiple auto switch from Reliance Liquid Fund – Treasury Plan – Retail Plan (all sub options except for daily dividend option) to various Schemes of RMF. The investor should provide a date on which the execution of multiple Switches should be executed. The switch date opted by the investor shall not be less than T + 7 days. (T is the date of submission of the application form).

This facility will be available to the investors subject to such limits, operating guidelines, terms and conditions as may be prescribed by the RMF from time to time. Investors are required to refer to FAST enrolment form, Key Information Memorandum (KIM) and Scheme Information Document (SID) for more details. RCAM / RMF reserve the right to introduce, change, modify or withdraw the features available in this facility from time to time at its discretion with the prior notice.

All the other terms and conditions of the SID and KIM, read with the addenda issued from time to time will remain unchanged.
